Engagement Matrix

Alignment between community expectations and municipal management

Challenges / future outlook

Challenges

- **Government/Regulatory Model** does not allow the delivery of solutions
- Difficulty for everyone to **speak the same language**
- **Isolated actions** that are not enough to create broader changes
- Scope of some critical impacts are **beyond municipal control**
- Systemic impacts are complex, multidimensional, uncertain, non-linear and can take a long time – **broad vision and consensus**

**Cities for
Sustainability
Governance**

Thank you!
